

Travel Plan Coordinator Role / Support

In order to ensure that a travel plan meets the targets set for use of sustainable modes of transport, it is important that a number of tasks are implemented. The tasks are normally conditioned by the local authority and need to be undertaken on an annual basis.

Travel plan-related tasks are usually delivered by a ‘travel plan coordinator’ (TPC). The TPC is normally a part-time role; the TPC can be employed directly by the occupier, the managing agent, or tendered to a third party such as SCP.

SCP are experienced in delivering the TPC role for a range of sites including education, workplace or residential sites as well as framework arrangements covering a number of uses.

We would be pleased to discuss how best to tailor our input to meet your ongoing travel planning requirements.

Travel Plan Coordinator Recruitment

If a permanent TPC role is required within your organisation, we would be pleased to assist in the recruitment process by drafting the job description, holding interviews, and coordinating training.

SCP staff are experienced in this field and would be pleased to help you undertake recruitment; we can provide as much or as little support as you need. Please call for an informal chat to see how we could assist you.
